Orient EduCator Plan

Secure Your Future

Education is and will always be very important in building a solid foundation in one's life and it is the desire of every parent/guardian to provide the best possible, affordable but quality education to their children.

Why the Orient Educator plan?

This plan helps in giving your child the much needed advantage in life by providing the finances to cater for their future education.

Does it really pay?

Yes it does!!! The payments are done in four instalments during the last four years of the policy term. Term ranges from 10 - 20 years e.g if it is a 10 year policy, you will be paid on the 7th, 8th, 9th and 10th year. The payments will be done as follows:

| 7th Year | 8th Year | 9th Year | 10th Year |
|-----------------------|-----------------------|-----------------------|---|
| 10% of sum assured | 20% of sum assured | 30% of sum assured | 40% of sum assured + accured bonuses |

How do I access my benefits when they are due?

You can access your benefits once you have:

- ▶ Paid all premiums due.
- ► Submitted the original policy document
- ► For death claim; proof that you are the beneficiary in the policy, and that the event making you claim actually occurred e.g. police abstract in case of an accident.
- ► Any other documents Kenya Orient Life Assurance Limited may ask for.

Am I required to undergo medical testing for this policy?

No you are not required to undergo medical testing, if your amount of cover is below the free cover limit.

Am I eligible to join

Yes as long as you are a parent or guardian between 18 - 65 years.

What are the benefits?

Assume you are a 25 year old male parent with a 7 year old child in class 2 and want to save for high school education, and your goal is to save KES 300,000:

- ➤ You will pay a monthly premium of Kes 3,297 for a 10 year plan.
- ► The premium will entitle your child to:

| FORM 1 | FORM 2 | FORM 3 | FORM 4 |
|----------|----------|----------|-------------------------------------|
| 30,000/= | 60,000/= | 90,000/= | 120,000 + Accumulated Bonuses |

In case of death or permanent disability of the parent, the policy continues with Kenya Orient Life contributing KES 3,297 (optional benefit) into the policy monthly so that when the child goes to high school then all the benefits are still payable as indicated above.

How do I join?

Fill an application form with any of our agents OR visit our website www.orientlife.co.ke for contacts and more information.

How do I know I am covered?

You will receive a policy document from Kenya Orient Life Assurance confirming the details of your cover. You are advised to read the document carefully and keep it safely for future reference and claims settlement.

Our Background
